Student Ambassador (Gemini)
Belagavi, Karnataka, India

Summary

I'm a passionate and driven tech enthusiast who thrives at the intersection of innovation, problem-solving, and impact. Whether I'm building full-stack applications, exploring AI-driven solutions, or leading a team in a national-level hackathon, I bring energy, curiosity, and a builder's mindset to every challenge.

With hands-on experience in web development (React, Next.js, Firebase), API integration, and real-time dashboards, I specialize in converting ideas into scalable, user-friendly digital products. I've also explored civic tech, automation, and AI-based disaster response systems—all aimed at making meaningful change through technology.

Experience

Google Gemini
Student Ambassador
August 2025 - Present (3 months)
Karnataka, India

Open Source Connect

Aequus Hubballi
Intern
March 2025 - March 2025 (1 month)

I built a Employee Management application that is a web-based tool designed to streamline employee information management efficiently. It allows admins to register, log in, add employee details, view employee lists, and download data in Excel format. Additionally, it incorporates a secure feature to view registered user information, accessible only through valid credentials.

I have used HTML, CSS, JS to bring the project to life and plan to improve this model

Education

Gogte Institute of Technology, Belgaum

Bachelor of Engineering - BE, Computer Science · (September 2024 - August 2028)

KLE International School, Kuvempu Nagar, Belagavi

1st - 10th Grade · (March 2012 - April 2022)
